●	CC Sx	How can I help you today?	My left knee is killing me. And when my daughter saw that I was limping and how red the knee was, she insisted that I come in and get it checked out.	
●	Assoc Sx	Do you have any other symptoms or concerns we should discuss?	Nope, just the knee pain and swelling.	
●	Assoc Sx	Have you been having fevers?	Nope -- no fever, no chills.	
●	Etiology	Have you had any trauma to your knee(s)?	No. Initially I thought I must have hurt it at some point, but I can't recall injuring it. The skin on the knee looks red, almost like a sunburn, but I don't remember hurting or bruising it.
