

Portage Learning Chem 210 - Module 1 exam Newest

Question 1

3 / 3 pts

True or False: According to the Module, a compound with a molecular mass of 3,000 g/mol is considered a macromolecule.

FALSE

Question 2

3 / 3 pts

True or False: Biomolecules can have only two functional groups.

FALSE

Question 3

0 / 3 pts

learnexams

True or False: The following functional group is an amide.

FALSE

Question 4

3 / 3 pts

True or False: In a eukaryotic cell, the organelles called peroxisomes serve the purpose of digesting macromolecules.

FALSE

Question 5
