

GOOGLE CERTIFIED EDUCATOR LEVEL 2 LATEST 2023-2024 ACTUAL EXAM 300 QUESTIONS AND CORRECT DETAILED ANSWERS WITH RATIONALES|ALREADY GRADED A+

Mr. Jones has been talking with you about personalizing his classroom more using a blended model. He is arguing that creating a HyperDoc on a Google Doc is a better way to do this than a Google Site. Why would he say this?

Google Docs can be distributed in Google Classroom for ease of organization.

Google Docs can be shared and edited by students more easily than a page on Google Sites.

A teacher would have to create a Google Site for every student and then create pages for each HyperDoc on those sites for every student

Docs are easier and more efficient to grade for this type of assignment.
