

Professional Google Workspace Administrator Exam New 2023-2024 Version New Latest Version Best Studying Material

You are using Google Cloud Directory Sync to manage users. You performed an initial sync of nearly 1,000 mailing lists to Google Groups with Google Cloud Directory Sync and now are planning to manage groups directly from Google. Over half the groups have been configured with incorrect settings, including who can post, who can join, and which groups can have external members. You need to update groups to be configured correctly. What should you do?

- A. Use the bulk upload with CSV feature in the G Suite Admin panel to update all Groups.
- B. Update your configuration file and resync mailing lists with Google Cloud Directory Sync.
- C. Create and assign a custom admin role for all group owners so they can update settings.
- D. Use the Groups Settings API to update Google Groups with desired settings. ----- Correct Answer ----- **Use the Groups Settings API to update Google Groups with desired settings.**

Madeupcorp.com is in the process of migrating from a third-party email system to G Suite. The VP of Marketing is concerned that her team already administers the corporate AdSense, AdWords, and YouTube channels using their @madeupcorp.com email addresses, but has not tracked which users have access to which service. You need to ensure that there is no disruption. What should you do?

- A. Run the Transfer Tool for Unmanaged users.
- B. Use a Google Form to survey the Marketing department users.
- C. Assure the VP that there is no action required to configure G Suite.
- D. Contact Google Enterprise Support to identify affected users. ----- Correct Answer - ----- **Run the transfer tool for unmanaged users**

Your company has an OU that contains your sales team and an OU that contains your market research team. The sales team is often a target of mass email from legitimate senders, which is distracting to their job duties. The market research team also receives that email content, but they want it because it often contains interesting market analysis or competitive intelligence. Constant Contact is often used as the source of these messages. Your company also uses ConstantContact for your own mass email marketing. You need to set email controls at the Sales OU without affecting your own outgoing email or the market research OU. What should you do?

- A. Create a blocked senders list as the Sales OU that contains the mass email sender addresses, but bypass this setting for Constant Contact emails.
- B. Create a blocked senders list at the root level, and then an approved senders list at the Market Research OU, both containing the mass email sender addresses.
- C. Create a blocked senders list at the Sales OU that contains the mass email sender addresses.
- D. Create an approved senders list at the Market Research OU that contains the mass email sender addresses. ----- Correct Answer ----- **Create a blocked senders list as the Sales OU that contains the mass email sender addresses, but bypass this setting for Constant Contact emails.**

Your client is a multinational company with a single email domain. The client has compliance requirements and policies that vary by country. You need to configure the environment so that each country has their own administrator and no administrator can manage another country. What should you do?

- A. Establish a new GSuite tenant with their own admin for each region.
- B. Create an OU for each country. Create an admin role and assign an admin with that role per OU.
- C. Create Admin Alerts, and use the Security Center to audit whether admins manage countries other than their own.
- D. Create a Team Drive per OU, and allow only country-specific administration of each folder. ----- Correct Answer ----- **Create an OU for each country. Create an admin role and assign an admin with that role per OU.**

Your organization has been on G Suite Enterprise for one year. Recently, an admin turned on public link sharing for Drive files without permission from security. Your CTO wants to get better insight into changes that are made to the G Suite environment. The chief security officer wants that data brought into your existing SIEM system. What are two ways you should accomplish this? (Choose two.)

- A. Use the Data Export Tool to export admin audit data to your existing SIEM system
- B. Use Apps Script and the Reports API to export admin audit data to your existing SIEM system.
- C. Use Apps Script and the Reports API to export drive audit data to the existing SIEM system
- D. Use the BigQuery export to send admin audit data to the existing SIEM system via custom code
- E. Use the BigQuery export to send drive audit data to the existing SIEM system via custom code. ----- Correct Answer ----- **Use Apps Script and the Reports API to export admin audit data to your existing SIEM system.**

Use the BigQuery export to send admin audit data to the existing SIEM system via custom code

The company's ten most senior executives are to have their offices outfitted with dedicated, standardized video conference cameras, microphones, and screens. The goal is to reduce the amount of technical support they require due to frequent, habitual switching between various mobile and PC devices throughout their busy days. You must ensure that it is easier for the executives to join Meet video conferences with the dedicated equipment instead of whatever device they happen to have available. What should you do?

- A. Set up unmanaged Chromeboxes and set the executives' homepage to meet.google.com via Chrome settings.
- B. Set up the executive offices as reservable Calendar Resources, deploy Hangouts Meet Hardware Kits, and associate the Meet hardware with the room calendars.
- C. Deploy Hangouts Meet Hardware Kits to each executive office, and associate the Meet hardware with the executives' calendars.
- D. Provision managed Chromeboxes and set the executives' Chrome homepage to meet.google.com via device policy. ----- Correct Answer ----- **Deploy Hangouts Meet Hardware Kits to each executive office, and associate the Meet hardware with the executives' calendars**

Your company works regularly with a partner. Your employees regularly send emails to your partner's employees. You want to ensure that the Partner contact information available to your employees will allow them to easily select Partner names and reduce sending errors. What should you do?

- A. Educate users on creating personal contacts for the Partner Employees.
- B. Add a secondary domain for the Partner Company and create user entries for each Partner user.
- C. Create shared contacts in the Directory using the Directory API.
- D. Create shared contacts in the Directory using the Domain Shared Contacts API. ----- Correct Answer ----- **Create shared contacts in the Directory using the Domain Shared Contacts API.**

Security and Compliance has identified secure third-party applications that should have access to G Suite data. You need to restrict third-party access to only approved applications What two actions should you take? (Choose two.)

- A. Whitelist Trusted Apps
- B. Disable the Drive SDK
- C. Restrict API scopes
- D. Disable add-ons for Gmail
- E. Whitelist G Suite Marketplace apps ----- Correct Answer ----- **Whitelist Trusted Apps**

Restrict API scopes
