

TEST BANK FOR

Introduction to Maternity and Pediatric Nursing, 8th Edition by Gloria Leifer

UNIT I: An Overview of Maternity and Pediatric Nursing

Chapter 1: The Past, Present, and Future

UNIT II: Maternal-Newborn Nursing and Women's Health

Chapter 2: Human Reproductive Anatomy and Physiology

Chapter 3: Fetal Development

Chapter 4: Prenatal Care and Adaptations to Pregnancy

Chapter 5: Nursing Care of Women with Complications during Pregnancy

Chapter 6: Nursing Care of Mother and Infant during Labor and Birth

Chapter 7: Nursing Management of Pain during Labor and Birth

Chapter 8: Nursing Care of Women with Complications during Labor and Birth

Chapter 9: The Family after Birth

Chapter 10: Nursing Care of Women with Complications Following Birth

Chapter 11: The Nurse's Role in Women's Health Care

Chapter 12: The Term Newborn

Chapter 13: Preterm and Post-Term Newborns

Chapter 14: The Newborn with a Perinatal Injury or Congenital Malformation

UNIT III: The Growing Child and Family

Chapter 15: An Overview of Growth, Development, and Nutrition

Chapter 16: The Infant

Chapter 17: The Toddler

Chapter 18: The Preschool Child

Chapter 19: The School-Age Child

Chapter 20: The Adolescent

UNIT IV: Adapting Care to the Pediatric Patient

Chapter 21: The Child's Experience of Hospitalization

Chapter 22: Health Care Adaptations for the Child and Family

UNIT V: The Child Needing Nursing Care

Chapter 23: The Child with a Sensory or Neurological Condition

Chapter 24: The Child with a Musculoskeletal Condition

Chapter 25: The Child with a Respiratory Disorder

Chapter 26: The Child with a Cardiovascular Disorder

Chapter 27: The Child with a Condition of the Blood, Blood-Forming Organs or Lymphatic System

Chapter 28: The Child with a Gastrointestinal Condition

Chapter 29: The Child with a Genitourinary Condition

Chapter 30: The Child with a Skin Condition

Chapter 31: The Child with a Metabolic Condition

Chapter 32: Childhood Communicable Diseases, Bioterrorism, Natural Disasters and the Maternal-Child Patient

Chapter 33: The Child with an Emotional or Behavioral Condition

UNIT VI: The Changing Health Care Environment

Chapter 34: Complementary and Alternative Therapies in Maternity and Pediatric Nursing

Chapter 01: The Past, Present, and Future

MULTIPLE CHOICE

1. A patient chooses to have the certified nurse midwife (CNM) provide care during her pregnancy. What does the CNMs scope of practice include?

- a. Practice independent from medical supervision
- b. Comprehensive prenatal care
- c. Attendance at all deliveries
- d. Cesarean sections

ANS: B

The CNM provides comprehensive prenatal and postnatal care, attends uncomplicated deliveries, and ensures that a backup physician is available in case of unforeseen problems.

DIF: Cognitive Level: Comprehension REF: Page 6

TOP: Advance Practice Nursing Roles KEY: Nursing Process Step: Implementation

MSC: NCLEX: Health Promotion and Maintenance: Prevention and Early Detection of Disease

2. Which medical pioneer discovered the relationship between the incidence of puerperal fever and unwashed hands?

- a. Karl Cred
- b. Ignaz Semmelweis
- c. Louis Pasteur
- d. Joseph Lister

ANS: B

Ignaz Semmelweis deduced that puerperal fever was septic, contagious, and transmitted by the unwashed hands of physicians and medical students.

DIF: Cognitive Level: Knowledge REF: Page 2

TOP: The Past KEY: Nursing Process Step: N/A

MSC: NCLEX: Safe, Effective Care Environment: Safety and Infection Control

3. A pregnant woman who has recently immigrated to the United States comments to the nurse, I am afraid of childbirth. It is so dangerous. I am afraid I will die. What is the best nursing response reflecting cultural sensitivity?

- a. Maternal mortality in the United States is extremely low.
- b. Anesthesia is available to relieve pain during labor and childbirth.
- c. Tell me why you are afraid of childbirth.
- d. Your condition will be monitored during labor and delivery.

ANS: C

Asking the patient about her concerns helps promote understanding and individualizes patient care.

DIF: Cognitive Level: Application REF: Page 7

TOP: Cross-Cultural Care KEY: Nursing Process Step: Implementation

MSC: NCLEX: Psychosocial Integrity: Psychological Adaptation

4. An urban area has been reported to have a high perinatal mortality rate. What information does this provide?

- a. Maternal and infant deaths per 100,000 live births per year
- b. Deaths of fetuses weighing more than 500 g per 10,000 births per year
- c. Deaths of infants up to 1 year of age per 1000 live births per year
- d. Fetal and neonatal deaths per 1000 live births per year

ANS: D

The perinatal mortality rate includes fetal and neonatal deaths per 1000 live births per year.

DIF: Cognitive Level: Comprehension REF: Page 12

OBJ: 9 TOP: The Present-Child Care

KEY: Nursing Process Step: Implementation

MSC: NCLEX: Safe, Effective Care Environment: Coordinated Care

5. What is the focus of current maternity practice?

- a. Hospital births for the majority of women
- b. The traditional family unit
- c. Separation of labor rooms from delivery rooms
- d. A quality family experience for each patient

ANS: D

Current maternity practice focuses on a high-quality family experience for all families, traditional or otherwise.

DIF: Cognitive Level: Comprehension REF: Page 6

TOP: The Present-Maternity Care KEY: Nursing Process Step: N/A

MSC: NCLEX: Health Promotion and Maintenance

6. Who advocated the establishment of the Childrens Bureau?

- a. Lillian Wald
- b. Florence Nightingale
- c. Florence Kelly
- d. Clara Barton

ANS: A

Lillian Wald is credited with suggesting the establishment of a federal Childrens Bureau.

DIF: Cognitive Level: Knowledge REF: Page 4

TOP: The Past KEY: Nursing Process Step: Implementation

MSC: NCLEX: Health Promotion and Maintenance: Growth and Development

7. What was the result of research done in the 1930s by the Childrens Bureau?

- a. Children with heart problems are now cared for by pediatric cardiologists.
- b. The Child Abuse and Prevention Act was passed.
- c. Hot lunch programs were established in many schools.
- d. Childrens asylums were founded.

ANS: C

School hot lunch programs were developed as a result of research by the Childrens Bureau on the effects of economic depression on children.

DIF: Cognitive Level: Knowledge REF: Page 4

TOP: The Past KEY: Nursing Process Step: N/A

MSC: NCLEX: Health Promotion and Maintenance: Coordinated Care

8. What government program was implemented to increase the educational exposure of preschool children?

- a. WIC
- b. Title XIX of Medicaid
- c. The Childrens Charter
- d. Head Start

ANS: D

Head Start programs were established to increase educational exposure of preschool children.

DIF: Cognitive Level: Knowledge REF: Page 3

TOP: Government Influences in Maternity and Pediatric Care KEY: Nursing Process Step: N/A

MSC: NCLEX: Health Promotion and Maintenance: Growth and Development

9. What guidelines define multidisciplinary patient care in terms of expected outcome and timeframe from different areas of care provision?

a. Clinical pathways

- b. Nursing outcome criteria
- c. Standards of care
- d. Nursing care plan

ANS: A

Clinical pathways, also known as critical pathways or care maps, are collaborative guidelines that define patient care across disciplines. Expected progress within a specified timeline is identified.

DIF: Cognitive Level: Knowledge REF: Page 12

TOP: Health Care Delivery Systems KEY: Nursing Process Step: N/A

MSC: NCLEX: Safe, Effective Care Environment: Coordinated Care

10. A nursing student has reviewed a hospitalized pediatric patient chart, interviewed her mother, and collected admission data. What is the next step the student will take to develop a nursing care plan for this child?

- a. Identify measurable outcomes with a timeline.
- b. Choose specific nursing interventions for the child.
- c. Determine appropriate nursing diagnoses.**
- d. State nursing actions related to the child's medical diagnosis.

ANS: C

The nurse uses assessment data to select appropriate nursing diagnoses from the NANDA-I list. Outcomes and interventions are then developed to address the relevant nursing diagnoses.

DIF: Cognitive Level: Application REF: Page 11

TOP: Nursing Process KEY: Nursing Process Step: Nursing Diagnosis

MSC: NCLEX: Safe, Effective Care Environment: Coordinated Care

11. A nursing student on an obstetric rotation questions the floor nurse about the definition of the LVN/LPN scope of practice. What resource can the nurse suggest to the student?

- a. American Nurses Association
- b. States board of nursing**
- c. Joint Commission
- d. Association of Women's Health, Obstetric and Neonatal Nurses

ANS: B

The scope of practice of the LVN/LPN is published by the state's board of nursing.

DIF: Cognitive Level: Comprehension REF: Page 3

OBJ: 18 TOP: Critical Thinking

KEY: Nursing Process Step: Implementation

MSC: NCLEX: Safe, Effective Care Environment: Coordinated Care

12. What was recommended by Karl Cred in 1884?

- a. All women should be delivered in a hospital setting.
- b. Chemical means should be used to combat infection.
- c. Podalic version should be done on all fetuses.
- d. Silver nitrate should be placed in the eyes of newborns.**

ANS: D

In 1884 Karl Cred recommended the use of 2% silver nitrate in the eyes of newborns to reduce the incidence of blindness.

DIF: Cognitive Level: Knowledge REF: Page 2

TOP: Use of Silver Nitrate KEY: Nursing Process Step: N/A

MSC: NCLEX: Health Promotion and Maintenance: Prevention and Early Detection of Disease

13. What is the purpose of the White House Conference on Children and Youth?

- a. Set criteria for normal growth patterns.
