● Asked ✗ Not asked

Graded	Approach	Question	Response	Information Obtained <i>Clinic Notes</i>
●	CC Sx	How can I help you today?	My left knee is killing me. And when my daughter saw that I was limping and how red the knee was, she insisted that I come in and get it checked out.	
●	Assoc Sx	Do you have any other symptoms or concerns we should discuss?	Nope, just the knee pain and swelling.	
●	Assoc Sx	Have you been having fevers?	Nope -- no fever, no chills.	
●	Etiology	Have you had any trauma to your knee(s)?	No. Initially I thought I must have hurt it at some point, but I can't recall injuring it. The skin on the knee looks red, almost like a sunburn, but I don't remember hurting or bruising it.	

OLD-CARTS for the HPI

● Asked ✗ Not asked

Graded	Approach	Question	Response	Information Obtained <i>Clinic Notes</i>
●	Onset	When did the pain in your knee(s) start?	Two days ago it was just a mild ache, but now it really hurts.	
●	Onset	When did your swelling start?	With the pain but is getting worse over the last couple of days.	
●	Location	Does the pain in your knee(s) radiate someplace else? Where?	It doesn't move anywhere. It's just in my left knee.	
	Duration			
●	Characteristics	Does the pain in your knee(s) come and go?	No, it's there constantly.
